INDIAN RAJAH'S SON TALKS OF RACE PROBLEM

M. P. Sinha Would Abolish
Race Distinctions and
Have Peace

VISITING IN VANCOUVER.

Takes Liberal View of Situation
and Freely Discusses
Grave Question.

M. P. Sinha, of Agre, the old Mogul capital in India, is at present visiting in Vancouver and is a guest at Hotel Irving. He is accompanied by his wife and Mrs. Allen, a lady physician who is in attendance upon Mrs. Sinha. The party is touring the globe, and that part of their itinerary already completed includes the capitals of Europe and London as well as the principal points in Canada and the United States. Mr. Sinha holds a very distinguished position in his native land, being the son of the Rajah of Agre, and the heir apparent to the title. He is highly educated and speaks English fluently, possessing a wealth of verbiage.

En Route Two Months.
The party left Bombay on August

17. Mr. Sinha freely discussed questions of a public character. He is decidedly well informed and in order to familiarize himself with the other countries of the world, he proposes to traverse the globe seven times, this being his first trip. He is obliged to abbreviate his present journey owing to the weakened condition of his wife and after a few days here will go on

to Japan and thence home. Each trip will cost him upwards of \$6000, but he considers that the money is well spent towards the education it will bring him. Mr. Sinha is very favorably impressed with Vancouver. "It is a very busy place," he said, "and as far as I can see is very cosmopolitan."

Asiatic Question Puzzling

"How do you regard this present Asiatic problem?" was propounded. "That is a very difficult question to answer," he replied. "It is a question which would puzzle experienced politicians and they would hesitate in answering it."

In his estimation the great object of humanity is to establish universal peace and in order to establish permanent harmony and peace it would be necessary to abolish the distinction between races, languages and countries. "The aim and object of this present trouble in Vancouver is to keep the Asiatics out of the country, then the other and broader purposes cannot be served. Of course I admit that the only immediate solution of the problem is to keep the Asiatics back. The races must mix and intermarry before the problem of universal peace is solved but at the present time the solution appears to be far away."

"How about a restricted immigration?" "Well, that certainly appears to be a good idea but the permanent result would be different."

Living in India.

Mr. Sinha said that of all the countries he had visited he found Canada and the United States the most costly in which to live. In India one could live so much cheaper than in any other land. He reviewed labor conditions there and showed how laborers would often work for a sum equivalent to 10 cents a day.

OUR POPULAR SONG SERIES.

Let Me Kiss Those Tears away. It isn't necessary. Take her for lunch or afternoon tea to THE CABIN. She will be all smiles.

Ottawa and Victoria
pealed to in Nea
—Question of P
iental Quarter Bro

It is understood that in two strong pressure will be brought by the city on the part of Ottawa and Victoria, hence to burdens which the hearing.

The protest to Ottawa by the Dominion Government immigration sheds and as policing of foreign quarter point in Canada where in accustomed to centre, say. This places upon Vancouver which is thought to be as much as it comes to the immigration regulation authorities. The immigration after and policing will be shown to be more than the sections where it will be further pointed out that the Dominion should take over since the city is but the way to the Dominion, and grants coming do not interfere here as permanent residence.

In speaking of this the foreign quarters, it was the local police be called during the inquiry of making into the Japanese district. It would be shown that the expense of the city also arose through the policing of the quarter during the riot was over, and which no necessity for such a through the actions of themselves, since there is for the services of the other point of the city, probably be enlarged upon the to the Ottawa authorities.

The picket to Victoria by the Attorney-General be the city of the huge expense incident to the of prosecutions in the which are really provincial city coming into the matter cause it is the metropolis vine and, therefore, the which the general trend leads. Instances will be this line of heavy bills paid in the past and the new methods, specially of the local situation, asked in effect immediately.

WILL ERECT SMELT ON ALBERA

Fault in the mining fuel district is evidenced by a new smelter, \$150,000 is to be erected on Harbor, to be operated in the of the copper deposits own Southern Cross Mining Company have been outlined. Cecil, who represents England in the enterprise, for London this week to lay before the directors and have effect endorsed.

Ashland, Wis., Oct. 25.—were killed yesterday by the of a mixing mill of the Dynnhamite Company's factory
