THROTTLE PRESS OF TROUBLED INDIA

Proposed Legislation Will Punish Newspapers Which Render Government Odious in Sight of People.

Calcutta, Feb. 5.—The new press bill designed to suppress the dissemination of anarchistic literature, which was foreshadowed in the speech with which Lord Minto appeared before the imperial council, was introduced at today's session of the council by Sir Herbert Hope-Risley, secretary of the home department of the British government of India.

The measure does not create a censorship immediately, but provides for the control of all newspapers and presses, the proprietors of which are obliged to deposit from \$150 to \$500, which is to be forfeited on the conviction of the party of an attempt to incite to murder or anarchical outrages, to tamper with the loyalty of the army and navy, excite racial clash or religious animosity, contempt of the government or native prince, or the intimidation of public servants, etc. Sir Herbert, explaining the necessity of curbing freedom of publication, said:

"We see a widely-read portion of the Indian press occupied in rendering the government odious in the sight of Indian people. The government is represented as a foreign one and therefore selfish, and it is alleged to have produced famine, its public works to have generated malaria and to have introduced the plague and poisoned the wells with the object of reducing the population in order to place it into subjection; to have destroyed religion by a godless system of education and in short to have enslaved a whole people who now struggle to be free. The press openly proclaims the only cure for the ills of India is freedom from foreign rule."

WOMEN AND TENSION

These Are Two Reasons of Nervous Strain and Insanity.

New York, Feb. 5.—Woman is largely to blame for the considerable increase in recent years of suicide and insane persons, in the opinion of Prof. Max G. Schlap, who is delivering a series of lectures on public health before the New York Academy of Medicine.

"There are nearly twice as many cases of suicide and insanity at present as there were a generation ago," said the professor, "and the chief cause for this condition is the steady invasion of women into the different sorts of industries, helped by the tension of the times in which we are living."

San Francisco, Feb. 5.—After falling from the third story of a building here today and breaking a two-by-four scantling on his way down, John Persall, a cornice worker, landed on his feet and was not seriously injured.

His Peculiarity.

A travelling man who stutters spent all afternoon in trying to sell a grouchy business man a bill of goods, and was not successful. As the salesman was looking up his grip the grouchy was impolite enough to observe in the presence of his clerks: "You must find that impediment in your speech very inconvenient at times." "Oh, n-no," replied the salesman. "Every one has his p-peculiarity."
